

## About Me

A passionate full-stack developer with experience in both front-end and back-end technologies. I enjoy building scalable, user-friendly applications and solving complex problems through innovative solutions. Always eager to learn and explore new technologies to enhance development efficiency.

## Education

University of Sri Jayewardenepura

2022 - PRESENT

Faculty of Technology

Department of Information and Communication Technology

**Bachelor of Information & Communication Technology (Hons)**

specializing in Software Technology

## Certificates & Courses

- Web Design for Beginners (University of Moratuwa)
- Python for Beginners (University of Moratuwa)
- Introduction to Software Engineering (Coursera)
- Postman API Fundamentals Student Expert (Postman Academy)

## Projects

### • Travel Story App - Individual

MERN stack with Bootstrap for a responsive design.

Features: Add, edit, and explore travel stories.

### • Bags Store Application - Individual

MERN stack with Material UI for an e-commerce bag store.

Features: Product browsing, cart system, admin bag management, sales tracking.

### • Library Management System - Individual

MERN stack with Bootstrap for a responsive design.

Features: Book inventory management, issue/return tracking, user book requests.

### • Lecture Hall Management System - Group

Built using MERN stack to streamline lecture hall scheduling and management.

Features: Timetable viewing, notifications, issue reporting, and admin control.
